# #LEARNIT #LIVE IT #LOVEIT

Over the Summer, we have spent countless hours designing a Hebrew School program that will cater to all of our students, no matter the situation for the upcoming school year. The program is titled Bringing it Home: Making Judaism come alive through experiential and interactive learning.

We have three tracks available.

**In-Person Hebrew School:** Engaging classes following social distancing government guidelines.

**Virtual Hebrew School:** Virtual Hebrew School with our live teachers, engaging classes. and supplies delivered to your door.

**Hebrew School in your yard:** Weekly Social Distanced visits from a teacher.

Our curriculum has been designed to be taught through a diverse set of mediums, including drama, construction, STEM, and stop-motion animation. The curriculum comprises seven units, focusing on lessons that are learned from each room of the home. The subjects will come alive as students learn about the Jewish holidays, empathy, respect and integrity amongst other life skills and Jewish values while exploring each room of their house.
